

Media pack 2025

Safety Management

Safety Management is published by the [British Safety Council](#).

First published more than 50 years ago, the 48-page [magazine](#) features news, features and opinion on the latest developments around managing risks to workers' health, safety and wellbeing, in the UK and internationally. The magazine is aimed at anyone responsible for protecting the health, safety and wellbeing of people at work who needs to keep up-to-date with the latest news, legislation and best practice in the field. [Safety Management](#) also reports on the key sustainability, climate change and environmental management challenges facing all businesses globally.

The magazine is an online [PDF 'PageTurner'](#) that is emailed to over 37,000 subscribers each month (December/January is a combined edition). The readers are [British Safety Council](#) member organisations and subscribers to our e-newsletter, as well as our wider network. The [British Safety Council](#) is a charity that both campaigns for – and helps businesses achieve – excellent standards of occupational safety, health & wellbeing, environmental management & sustainability.

[Safety Management](#) is the Official Journal for the [SHW Live and Fire Safety Live exhibitions](#) taking place at Olympia London in June 2025 and Manchester in January 2026. The June 2025 and December 2025–January 2026 editions of [Safety Management](#) will incorporate the official Event Guide from the show organiser, and will be printed and distributed at the respective exhibitions.

[Safety Management](#) reports on the [British Safety Council's](#) occupational safety, health & wellbeing campaigns, policy work & engagement activities. This includes the [Keep Thriving](#) campaign, which aims to improve the wellbeing of workers, within and outside of the workplace, so everyone can thrive.

We also publish [Safety Management India](#), an [online PDF magazine](#) for the [British Safety Council's](#) member organisations in India.

Magazine features are researched and written by our own team or by external expert authors. Our network of contributors includes top researchers and academics and thought leaders in their fields. We also welcome ideas from external authors who wish to write feature articles and opinions. Please send a synopsis of your proposed article to: publications@britsafe.org

The British Safety Council's vision is that no one should be injured or made ill through their work.

Testimonials

“It is by far my favourite of all publications available. The layout, content and information provided are so much more in keeping with the requirements of the profession and those on the ‘coal face’.”

Andrew Butler

*Environment, Health and Safety Practitioner
United Kingdom*

“I find the articles to be more about engagement and people, as opposed to being technical like other publications.”

Lyndon Sutcliffe

*EHS Manager
Surgical Innovations Group PLC
United Kingdom*

Advertising Material

Our production system is set up
to receive your ads in the most popular
and flexible hi-res formats.

Ensure artwork is converted to
CMYK (no spot colours or RGB)
and at least 300 dpi.

Combined colour ink density
must not exceed 300%.

Supply material on email.

File formats accepted

The preferred file format is a
high resolution, press ready PDF
(PDF/X-1a) with all fonts embedded.

If that is not possible, we also accept:

InDesign – Fonts converted to outlines,
linked images included

Illustrator – Fonts converted to outlines

FreeHand – Fonts converted to paths

Photoshop – Layers flattened,
at least 300 dpi, high resolution.

Please include crop marks but
no colour bars.

Please ensure all files meet our
specifications. Any additional editing,
resizing or retouching of advertisements
will incur an extra charge.

Mechanical Data

This publication is printed offset litho
and saddle stitched.

Currency

We can process your order in Euros,
subject to the published conversion
rate into GBP at the time of booking.
